

Curriculum Vitae - in short - February 2021

Henrik Stenlund

Mr. Stenlund has painted actively since 2006, starting with pencil and charcoal. He has extended to acryl, woodcut prints, oil, watercolour and pastel and lately to encaustic. He is an experimenter in these techniques inventing fresh ways to express ideas. Mr. Stenlund has participated in more than 80 national and international exhibitions.

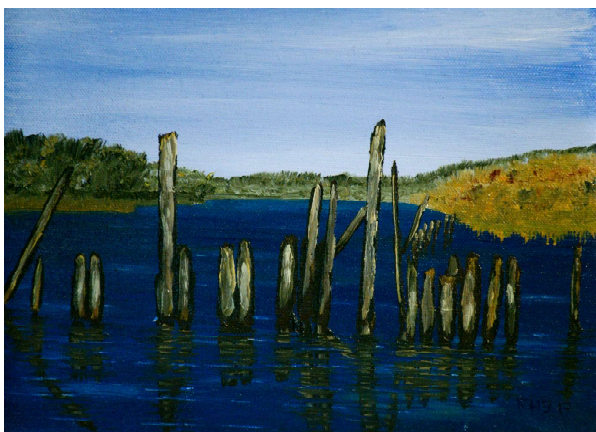

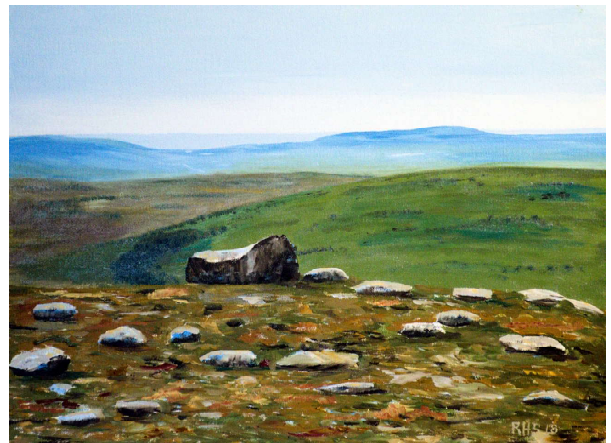

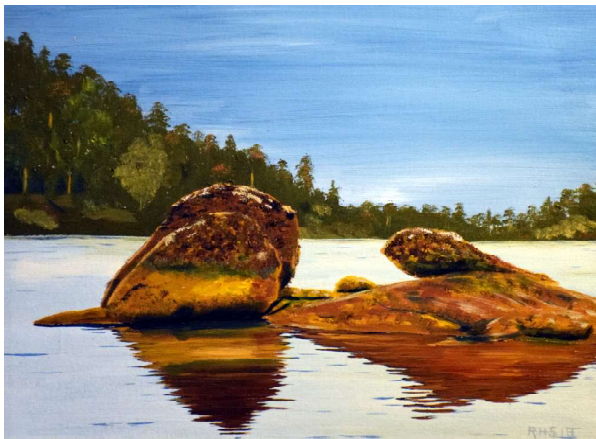

In spite of being an impressionist, he adds symbolism to his art which is mostly about nature and man's relation to it.

Mr. Stenlund spends every year weeks in forests and fjells painting and drawing. There is the unique possibility of becoming one with the atmosphere of nature and starting to express it on canvas. Environmental issues have been in his working focus since the beginning.
